AD3E INJECTABLE 100 ml

Type	Injectable A, D3 & E vitamins
Composition	Vitamin A 8MUI Vitamin D3 4MUI Vitamin E 2g Excipient: q.s. 100 ml
Intended For	Cattle, pigs, goats and sheep
Uses	For the prevention and treatment of vitamin A, D3 and E deficiencies in cattle, sheep, goats and pigs (such as poor growth, ophthalmic diseases and reproductive deficiencies). AD3E vitamins are indicated for those disease conditions where a deficiency of either vitamin A, D3 or E is known to occur. After injection, the vitamins are quickly and completely absorbed. The A, D3 and E vitamins stimulate cell and tissue reactions in periods of growth, production and convalescence (resistance to infections and reinforcement of epitheliums).
Dosage & Administration	By subcutaneous or intramuscular injection Cattle: 10 ml Calf: 4 to 5 ml Sheep, goat: 4 ml Lamb, kid: 2 ml Pig: 5 to 8 ml Piglet: 1 to 3 ml
Warnings	Do not overdose animal
Withdrawal Period	Meat and offal: 60 days
