ANTISEPTIC SPRAY Dichlorophen + Gentian violet 200 ml

Type	Antiseptic spray
Composition	3 % Dichlorophen B.Vet.C 375 mg Gentian Violet
Intended For	Cattle, sheep, pigs, goats and horses
Uses	Foot Rot and Ringworm in all species of animal
Dosage & Administration	<p><u>Foot Rot:</u> After paring and cleaning the feet, spray directly onto the hoof. Stand animals on hard ground until spray has dried before returning to pasture. Repeat in 7 days time if required</p> <p><u>Ringworm</u> Before treatment remove all scabs by soaking with a solution of soap in hot water. Wear rubber gloves for this part of the treatment. Dry the area and then spray from approximately 10 cms distance directly onto the wound ensuring the treatment of surrounding areas. Repeat treatment after 10 days for any scabs that have not dropped off.</p>
Warnings	<p>Do not spray in such a way that the droplets come into contact with eyes. Do not inhale. Do not eat, drink or smoke during the application. For external use only. Wash hands after use. Pressurised container: Protect from sunlight. Do not expose to temperatures exceeding 50°C. Do not pierce or burn, even when can is empty. Do not spray onto naked flame. Keep all medicines out of reach of children.</p>
Storage	Store below 25°C
