PIPERAZINE SOLUBLE POWDER 25 kg

Type	Oral anthelmintic powder
Composition	Piperazine Citrate Powder 100%
Intended for	Cattle, poultry, dog, cat, pig, rabbit, horse
Uses	<p>Cattle, horses pigs poultry, rabbits, dogs and cats infested with intestinal Oesophagostomum and infections with Ascarid worms.</p> <p>Piperazine is a product which causes a flaccid paralysis of the parasite, thereby allowing the elimination from the host due to normal intestinal peristaltic activity. Piperazine has low toxicity and is well tolerated by the animal.</p>
Dosage & Administration	<p>For Oral use</p> <p>Dissolve in drinking water or mix with liquidised food</p> <p>Cattle, horses, pigs poultry, rabbits, dogs, cats: 2 to 3 grms per 10 Kg live weight , this is equivalent of 2 to 3 grms per litre of drinking water depending on the conditions</p> <p>Re-administer 10 days to three weeks later.</p>
Withdrawal Period	<p>Meats and offal: 7 Days</p> <p>Eggs: Not to be used in laying hens if eggs are intended for human consumption</p> <p>Milk: Not to be used in lactating animals where milk is for human consumption</p>
